SUBJECT INDEX VOLUME 69

Abdominal trauma
  blunt
    gastric transection, image of trauma, 1308
    negative laparotomy, 1386
  compartment syndrome
    body mass index effects in obese patients, 78
    damage control laparotomy, 53
  damage control surgery, combat *versus* civilian, S168
  index, organ injury scaling, 1600
  intraabdominal vascular, mortality, 1393
  pediatric, laparoscopy in management, 761
  solid organ injuries, surgical treatment, 1011
Acetabulum, posterior wall, plate-screw fixation, 423
Activator protein-1, lung injury, carbon monoxide inhalation protection, 185
Acute care surgery. *see* Surgery
Adolescents
  dating violence, females presenting to the ER, S227
  injury analysis, rural children, 1294
  safety messages, perception of, S223
Adrenergic beta-antagonists, preexisting cardiac disease, trauma patients, 645
Adrenomedullin, severe liver injury, traumatic hemorrhage, 1415
Adult respiratory distress syndrome (ARDS)
  combat, drowning, S179
  femur fractures, mortality, 1527
  ventilation in, trauma patients, 501
  ventilator performance, altitude effects, 1574
Aging
  effects on trauma activation, 88
  rotator cuff injuries, proximal humeral fractures and, 901
Air transport

Teen driving, adolescent perception of safety messages, S223
Telemedicine, head injury, hospitals without neurosurgical service, 544
Telesonography, trauma, iphone tethered, 1597
Terrorism, suicide bombing attacks, pattern of thoracic trauma, 1022
Thermal injury
civil gas explosions, 928
combat, derivation of fluid rate for resuscitation, S49
elderly patients, effects of preinjury statin use, 99
pediatric, selenium status, 584
Thermoregulation, during transport, combat wounded, S162
Thoracic spine, imaging, improvement, 119
Thoracic trauma, pattern, suicide bombing attacks, 1022
Thoracocentesis, hanging drop for, location of pleural space, 970
Thromboelastometry
assessment of coagulation, combat care, S40
early prediction, massive transfusion, 1403
Tidal volume, maximizing oxygen delivery, with portable concentrator, S87
Tissue donation. *see also* Organ donation
family consent to, 956
Tooth avulsion, atopy, extra-alveolar time relations, E79
Tourniquet, use in tibial fractures, pain and, E94
Traction, axial, detection of cervical spine instability, 889
Training
surgical critical care, 471
trauma
live tissue use in, letter, 998, 999
report of AAST Critical Care Committee, 1619
Transcranial Doppler, detection of early neurological deterioration, 733
Transfusion, massive
combat care, S26
simplified score for prediction, S33
Transplantation, online organ and tissue registry, public education, 451
Trapezius muscle, splitting approach, trauma of supraspinatus fossa, 715
Trauma. *see also* Injury, and the specific type of trauma
admission to ICU, PTSD risk and, 627
β-adrenergic receptors, HPC mobilization and, 338
bicycle commuter injury, prevention, environment effects, 1112
blood loss, proper estimation of, 1191
blunt
geriatric, unreliability of vital signs, 813
hemorrhagic shock, after fluid therapy, 1161
hepatic hemangioma, image of trauma, 476
pelvic x-ray and, letter, 732
posttraumatic circulatory arrest, transport decisions, 1154
shock index, letter, 1002
spinal fracture, efficient CT screening, 437
spleen, delayed hemorrhage, 1423
splenic artery angioembolization, 1126
torso, flat inferior vena cava, 1398
triage protocol, letter, 998
ultrasound and prehospital triage, letter, 997
cervical spine injuries, traction to detect, 889
composite measures in, 256
facial fractures, elderly patients, Brazil, E73
falls from ground level, mortality in elderly patients, 821
femoral neck fractures, length-stable fixation, 142
heart period variability monitoring, letter, 479
hollow viscus injury, white blood cell counts, 302
intervertebral distraction, from cervical collars, 447
major
hyperglycemia as indicator of, 41
long-term patient outcomes, commentary, 532
massive transfusion, simplified score for prediction, S33
nonaccidental, infant mortality, socioeconomic disparities, 20
outcomes, global differences, 344
penetrating
cardiac, predictors of outcome, 574
decrease in killed in action and died of wounds rates, S1
incidence in US, letter, 1000
musculoskeletal, myostatin use in, 579
smecite granules for repair and healing, swine model, 1203
pericardial tamponade, CT findings, image of trauma, 995
prestorage leukoreduction, aging effects on banked blood and, 330
rates, retrievable vena cava filters, method for follow-up, 866
refractory hemorrhage, rFVII in management of, 489
space medicine and, Canada, 1313
spinal fracture, efficient CT screening, 437
supraspinatus fossa, trapezius-splitting approach, 715
telesonography, iphone tethered, 1597
thoracic and lumbar spine CT, reformats, 119
transfusion, storage effects on blood, 1427
vascular injury, bleeding control, 466
Trauma and Injury Severity Score (TRISS), M-study, urban trauma study in Tokyo, 934
Trauma centers
access to care, Canada, 1350
designations, traumatic brain injury, 263
effectiveness, 1
head injury, hospitals without neurosurgical service, 544
level I
mortality decrease, Dutch hospital, 1138
multitrauma patients, Dutch hospital, 1143
level II, trauma intensivist model, 1147
level I to level II activation, age effects, 88
pediatric, alcohol interventions in, 202
performance
excluding isolated hip fractures on benchmarking, 1037
hierarchical modeling, 1132
PTSD and major depression, at-risk survivors, 1560
resident duty hours restriction effects, teaching hospitals in PA, 607
risk-adjusted mortality at, effects of operative intervention rates, 70
transfer from first echelon hospital, rural setting, 1362
triage and hospital transfer, effects on mortality, 595
urban, M-study, Tokyo, 934
Trauma End-of-Life Optimum Support (TELOS), nurse and physician preferences, 1567
Trauma intensivists, in level II community hospital trauma center, 1147
Trauma patients
acute respiratory failure, ventilation in, 501
awake nasotracheal fiberoptic, remifentanil target-controlled infusion, 1185
clinical outcomes, NMR-based metabolic signatures, 31
complications, level I trauma center, Dutch hospital, 1143
delirium tremens in, blood tests as predictors, 199
end-of-life care
country and culture differences, 1323
nurse and physician preferences, 1567
mortality, on-scene time of mobile medical teams, 589
preexisting cardiac disease, mortality and, 645
prolonged prothrombin time, adverse outcomes and, 61
PTSD, at-risk survivors, 1560
smoking in, 308
ventilator-associated pneumonia
ampicillin-sulbactam utility, 861
mortality rates, 849
quality improvement in ICU, 855
ventilator-associated pneumonia in, 1083
Trauma surgeons
malpractice claims risk, asymmetric distribution, 549
primer for PTSD treatment, 231
Trauma systems
access to, Canada, 1350
for benchmarking and improvement, combat casualty care, S5
civilian, helicopters and improved outcomes, 1030
Dutch hospital, mortality decrease, 1138
inclusive, impact on mortality, 245
mortality rates, in mature systems, 620
quality and financial efficiency, use of Lean Six Sigma, 614
resident duty hours restriction, teaching hospitals in PA, 607

rural-remote
inefficiencies in, 253
population-based analysis, 11
targets for potential intervention, 633
US Army practices, blood transfusion, policy changes, S75
weekend effect, protection against, 1042
Traumatic brain injury (TBI)
adult, D-dimer to predict, letter, 1310
alcohol use effects, early Glasgow Coma Scale, 1176
angiogenesis and neurogenesis, brain cooling, 1467
autoregulation after, letter, 241
beta-adrenergic blockade and, 776
early coagulopathy, hypoperfusion and, 1410
effect on shock index, 1169
GFAP as biomarker for, 104
mild, postconcussion syndrome after, 789
multiple trauma, long-term health-related quality of life, 523
neurotrauma review article, 737
prehospital airway and ventilation, mortality and, 294
pressures times time dose, in outcome analysis, 110
severe
pentobarbital coma for refractory hypertension, 275
trauma center designation, 263
substance abuse in patients, screening and intervention, 722
sympathetic hyperactivity, beta-blocker therapy, 1602
Trauma training, live tissue use in, letter, 998, 999
Triage
elderly patients, letter, 732
hospital transfer and, effects on mortality, 595
overtriage, rapid discharge after transfer, 602
prehospital, ultrasound and, blunt trauma, letter, 997
protocol, blunt trauma, letter, 998
START and Sacco methods, mass casualty exercises, 215
trauma workload and, mass casualty events, 1074
undertriage, shock index and, letter, 733
Tuberous sclerosis complex, renal angiomyolipomas in, rupture, image of trauma, 477

Ultrasound
FAST, Canadian general surgery residents, 765
prehospital triage, letter, 997
proximal humeral fractures, rotator cuff tears and, 901
trauma telesonography, iphone tethered, 1597
Urethroplasty, fistula repair, children, 1300
Urethrorectal fistula, repair, children, 1300
Use of force injuries, law enforcement, 1288

Vascular injury
aortoiliac, misplacement of fixation screws, 870
extremity, temporary vascular shunt, 174
intraabdominal, mortality, 1393
operative or traumatic, bleeding control, 466
Vascular shunt, temporary, military extremity wounds, 174
Vena cava filters
pulmonary embolism prevention, letter, 1003
retrievable, method for follow-up, 866
Venous flap, shunt-restricted, hand/digit reconstruction, 399
Ventilation
airway pressure release, in acute respiratory failure, 501
high tidal volume, in severe hemorrhage, infant rats, E24
low tidal volume, in acute respiratory failure, 501
mechanical
ARDS patients, altitude effects, 1574
oxygen delivery with portable concentrator, S87
PEEP adjustments, abdominal hypertension, 375
Ventilator-associated pneumonia (VAP). *see* Pneumonia
Ventricular fibrillation, cardiac/neurologic damage relations, cardiac arrest rabbit model, 1442
Violence
black male victims, qualitative research, 1372
criminal activity, gun ownership prohibition, 948
injury during insurgency, breakdown of Iraqi infrastructure, 1379
intimate partner, adolescent females, S227
youth injured by, emergency department secondary prevention programs, 991
Vision loss, risk factors, after open or closed globe injury, 195
Vital signs, geriatric blunt trauma, unreliability of, 813
Vole captive bolt, hand injury, letter, 478

Warfarin, preexisting cardiac disease, trauma patients, 645
Weekend effect, protection against, in trauma systems, 1042
White blood cells
in hollow viscus injuries, 302
serial counts, trauma, letter, 1636
Withdrawal of treatment, trauma patients, country and culture differences, 1323
Wounds and injuries
all-terrain vehicles, ten years, 1338
combat
decrease in, S1
drowning, S179
MRSA infection, Iraq, S102
extremity, temporary vascular shunt, 174
extremity-exposed bone, subatmospheric pressure therapy, 1591
fasciotomy
extremity, Ty-Raps, 972
fixation after, tibial plateau fractures, 886
healing
chemokine CXCL12 expression plasmid, 392
smecite granules, swine model, 1203
negative pressure, air evac of combat casualties, S140
self-inflicted, punching glass, 691

Young-Burgess classification, lateral compression type 1 pelvic fractures, mortality prediction, 876
